

BLANCHE BLAIR

THAT Tanlac is a wonderful medicine for delicate children is conclusively proven by the remarkable results accomplished in the cases of the three children shown in this picture.

Little Blanche Blair, of Providence, R. I., age 13, gained 10 pounds; Regina McCabe, at right, age 9, of Scranton, Pa., gained 15 pounds; little Richard Leary, Jr., of Philadelphia, who was very delicate, is now in fine, robust health. The statements made by their parents are as follows:

Mr. A. M. Blair, residing at 20 Atwood street, Providence, R. I., said: "We are just so happy over the change Tanlac has made in our little girl that we can't do or say enough to show our appreciation. She had lost nearly 20 pounds in weight and looked so frail and weak that her mother and I were both almost worried sick over her condition. Since taking Tanlac, she has already gained 10 pounds, her color is better than it ever has been and she looks and acts like a different girl."

Mrs. Catherine McCabe, 414 Dickens Ave., Scranton, Pa., said: "The flu left my little Regina in such a bad condition that I have no idea she would be with me now if it hadn't been for Tanlac. It is a mystery to me how she lived on the little she was eating and was so lifeless she never even cared to play with the dolls and toys she got at Christmas. Since taking Tanlac she is as hardy and well as any child could be and has gained 15 pounds in weight. I will always praise Tanlac for restoring our little girl's health."

Richard Leary, 2342 Palmetto St., Philadelphia, said: "There is no doubt in my mind but that Tanlac saved my little boy's life. For two years I wouldn't have been a bit surprised to have seen him drop off at any time. He had stomach trouble and many a time the gas pressed up into his chest until his heart palpitated so I thought sure he couldn't breathe but a few more gasps. But Tanlac gave him back to us strong and well and we will praise it to our dying day."

The effect of Tanlac on the delicate stomachs of the young is one of the strongest evidences of its wholesomeness as well as its unusual merit. Although a powerful reconstructive, Tanlac contains no harmful ingredients, minerals or opiates which are so often found in other medicines. Being composed of the most beneficial roots and herbs known to science it is purely vegetable and can be taken by the most delicate children, and does not upset or injure the weakest or most delicate stomach.

There is a Tanlac agent in every town.—Advertisement.

Cities as Thunderstorm Spots.

The conclusion has been reached by a well-known engineer who has given the subject considerable attention that certain cities, if not indeed most inland cities of say 100,000 population or more, appear to be "thunderstorm spots." The observation has been made by E. R. Horton, of Voorheesville, N. Y., who also points out that "a shallow lake with sandy margins located in a forest may serve as a thunderstorm breeder" and cites as proof observations made by him over Oneida lake, New York.

Old Court Has Much Power.

In Liverpool (Eng.) there still exists one of the very few remaining medieval borough courts of record. At one time there were 215 in various parts of the kingdom. The Liverpool court of passage, as it is called, has practically unlimited jurisdiction in cases of action arising within the city, and has more power than has the City of London court which has jurisdiction only when the defendant is employed in the city itself.

A woman was trying to overcome the reluctance of a little girl to retire for the night. "Being six years old," she said, "you should go to bed at six. When you are seven you will be able to stay up till seven, and when you are eight you can keep awake till eight." The child gazed thoughtfully, with a mental arithmetic look at the kindly face, with its crown of gray hair and remarked: "Then I suppose you never go to bed at all?"

And Sensibility.

### BAD JAGUAR

"I'm a bad creature and I don't care," said the Jaguar. "I'm a wild cat. For I belong to the wild cat family and so that makes me a wild cat. And I am certainly wild enough. Oh, I am wild. And I am a wretch and I am proud of it."

"Now people and creatures say that when others are sorry for anything they have done that has been wrong there is great hope for their improvement."

"So if that is true it shows that there is no hope for my improvement and I'm glad of it."

"I've no desire to improve. No desire to do anything like that."

"To me the mere idea of improving one's ways is foolish."

"So that is a bad beginning. I have great spots and I am supposed to be the largest cat or at least the largest spotted cat on this side of the world."

"I am just as big if not bigger than the old leopard. Pooh! I don't think any one trembles at the thought of a leopard meeting them. If that were possible, and if leopards roamed around this country, as much as they would at the thought of meeting me."

"I fill creatures with fear. I don't like to be friendly or kindly or simply rather wild."

"I like to be cruel. Now a cat is very cruel the way he catches a mouse. For he doesn't kill the mouse at once but plays with it and plays with it and kills it after a time."

"That shows that even a 'tame' cat has some of the good old family qualities in him. Ah, yes, we call such ways fine family qualities."

"The Puma is a wild animal of this side of the world. But often the Puma behaves himself. He will swim and enjoy himself and climb about and behave well. He isn't nearly so wild as he should be in my opinion."

"I'm often called a tiger by people who live in the wild jungles of America. I'm always to be known by my handsome black rosette spots which are different from the round spots of Mr. Leopard."

"I've great strength and can do almost anything that requires strength."

"I've heard that in the zoo the Puma is really at times quite friendly and

at least he shows he's rather gentle at heart."

"But the old Jaguar isn't like that. He looks like a dangerous creature and a dangerous creature he is."

"I hate men and they had better stay out of my way if they don't want to be hurt."

"But I am handsome to look at if one can look at me and still live!"

"That can be done of course if I am in a zoo, but I don't happen to be in a zoo though some of my family are. There they are kept safely from the people who can look at them."

"There the Jaguar can't tell what he thinks of people—and what he thinks of people is that he doesn't see any reason why he should be nice to them."

"If any one should come to me and say, 'Jaguar, will you improve your ways and be kindly and be good?' I would say in answer, 'I'll crush you with my great jaws!'"

"That would be a smart answer all right. And I'd live up to my answer."

"Of course people are pretty safe from me as I never go where they are. If they come to the jungle or care to live about the jungle it is all right. That is—it is all right for me, but not for them. I don't care whether they do or not, really."

"But I don't go where they are as I like it where it is very wild. That is what suits me."

"The wild, bad old Jaguar will stay in the wild, rough old jungle and he'll never mend his ways no matter who should beg him to do so!"

## Help Your Kidneys Fight That Cold!

Winter Colds and Chills Weaken the Kidneys and Are the Direct Cause of Many Serious Kidney Disorders

Is winter-time your backache-time? Does every cold, chill or attack of grip leave you lame, achy and all worn out? Does your back throb and ache until it seems you just can't keep going another day? Then look to your kidneys! Grip, colds and chills throw a heavy strain on the kidneys. They overload the blood with poisons and impurities that the kidneys have to filter off. The kidneys weaken under this rush of new work; become congested and inflamed.

It's little wonder then, that every cold finds you suffering with torturing backache, rheumatic pains, headaches, dizziness and annoying bladder irregularities.

But don't worry! Simply realize that your kidneys are overworked at such times and need assistance. Get a box of Doan's Kidney Pills today and give your weakened kidneys the help they need. Assist them also by drinking pure water freely, eating lightly, and getting plenty of fresh air and rest. Doan's Kidney Pills have helped thousands and should help you. Ask your neighbor!

"Use Doan's," Say These Good Folks:

A. D. COLLINS, Prop. Grocery, First St., Grenada, Miss., says: "A year ago I got a severe cold which settled on my kidneys and made them weak and disordered. My back ached by spells, I was generally run down and I had a tired feeling while the attack lasted. I saw Doan's Kidney Pills advertised and decided to try them. I got a box and after using them my trouble disappeared and I felt better in every way. I have never had a return of the complaint since."

MRS. W. I. WINN, 228 Elliot St., Shelbyville, Tenn., says: "Several years ago my kidneys were causing me a lot of trouble. The action of these organs was weak. My back ached terribly and I was usually felt tired out, downhearted and exhausted. After using Doan's Kidney Pills for a while I felt like a different person. The action of my kidneys became regular, my back stopped aching and all other troubles left. Doan's cured me."

## SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

Dear Friends:

I want to tell you, as well as thank you, for what your preparation has done for my baby. He was a little, cross, crying baby. I was continually all the time, when I started to give it to him. But now he is a big, fat baby, and I cannot speak too highly of your preparation.

I know there is nothing that can come up to Mrs. Winslow's Syrup for a baby and I feel that it was a God-sent blessing to me. I will tell any mother what it has done for my baby.

With all good wishes to you and your preparation.

Respectfully,
